How premium finance works

Premium finance takes the hassle out of paying for your insurance so you don't have to pay for your insurance premium in one go. By spreading the cost of your insurance premium, choosing the payment date that best suits you, and budgeting for your fixed monthly repayment, it can help make your insurance more affordable and let you manage your money more easily. Once you have agreed on an insurance policy, you will be asked to sign a credit agreement. The finance provider pay Brightside the full cost of your insurance policy. You then pay the finance provider back the cost of your insurance policy plus interest and any charges in regular instalments by Direct Debit.
